What's Next

We will review your report and have assigned it an internal review ID : 9062740. Depending upon the completeness of the report and our ability to reproduce the problem, either a new bug will be posted, or we will contact you for further information.

We will try to process all newly posted bugs in a timely manner, but we make no promises about the amount of time in which a bug will be fixed. If you just reported a bug that could have a major impact on your project, consider using one of the technical support offerings available at Oracle Support (<https://support.oracle.com/>).
